

Safety Data Sheet AccuCast 77

Revision date: January 2, 2020

Section 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product name: AccuCast 77
Synonyms: None
Chemical family: Plasticizing Admixture for Concrete Pipe and Masonry Units
Producer: Premiere Concrete Admixtures
508 Cedar Street
Pioneer, Ohio 43554
www.premiereadmix.com

Telephone: 419-737-9808 Available during normal business hours

Emergency: CHEMTREC 800-424-9300 Available 24 hours

Section 2. HAZARDS IDENTIFICATION

GHS Hazard Classification and Label Elements

- Skin corrosion/ irritation (*category 3*)
- Serious eye damage / irritation (*category 2B*)

WARNING — Specific organ toxicity – Respiratory System
(single exposure) (*category 3*)

(Warning)

Hazard Statements

H316 Causes mild skin irritation
H320 Causes eye irritation
H335 May cause respiratory irritation

Precautionary Statements and Symptoms

P261 Avoid breathing mist, vapor, or spray
P271 Use only outdoors or in a well ventilated area to avoid respiratory irritation
P280: Wear protective eye/ face protection, gloves, and clothing (see Section 8).
P313 + P332: If skin irritation or rash occurs, get medical advice/attention.
P304 + P340 If inhaled, remove person to fresh air and keep comfortable for breathing. (see First Aid Section 4).
P308 + P312 If exposed or concerned, call a poison control center if you feel unwell
P305+315+351+338 If in eyes, rinse continuously for several minutes, remove contact lenses if present and easy to do so, continue rinsing (see first aid Section 4).
P337+P313 If eye irritation persists, get medical advice/ attention.
P403 + P233 Store in a well ventilated place, keep container tightly closed
P405 Store locked up to prevent respiratory exposure
P501: Dispose of unusable contents and the container in accordance with local, state, provincial, and Federal regulations (see Section 13).

Section 3. COMPOSITION / INFORMATION ON INGREDIENTS

Material information: (Does not include non-GHS regulated ingredients)

Name	CAS No.	Weight %
Calcium stearate	1592-23-0	Less than 50%
Glutaraldehyde	111-30-8	Less than 5%

***Note:** The above weight percentages are represented in ranges as estimates. Due to variation among production batches, component percentages may vary.

Section 4. FIRST AID MEASURES

Inhalation: Move exposed persons to fresh air. If the person is not breathing or breathing is irregular, provide artificial respiration or oxygen by trained personnel. Seek medical attention.

Skin contact: Quickly remove contaminated clothing and shoes. Wash affected skin with plenty of water and soap. Wash contaminated clothing before reuse. Call a physician or poison control center immediately.

Ingestion: Do not induce vomiting unless instructed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. If conscious and alert, rinse the person's mouth with water. Call a physician or poison control center immediately.

Eye contact: Check for and remove any contact lenses. Flushing eyes with tepid water lifting upper and lower lids for 15 minutes. Seek medical attention.

Section 5. FIREFIGHTING MEASURES

Suitable extinguishing media: Use an extinguishing agent suitable for the surrounding fire.

Specific hazards: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.

Special protective equipment for firefighters: As with any fire, wear self-contained breathing apparatus and full protective gear.

NFPA rating: HMIS rating:

Health:	2	2
Flammability:	0	0
Instability/reactivity:	0	0
Other:	N/A	*(PPE)

***The customer is responsible for determining the PPE code for this material**

Section 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Immediately contact emergency personnel. Avoid mist formation. Avoid breathing vapors or mist. Ensure adequate ventilation.

Large Spill: Do not let product enter drains. Personnel must have appropriate training, per Occupational Safety and Health Administration (OSHA) 29 CFR 1910.120.

Methods for Containment and Clean up | Avoid creating or breathing mist or vapors. Absorb with inert material and keep in a suitable, closed container for disposal. Wear personal protective equipment (Section 8).

Section 7. HANDLING AND STORAGE

Handling: | Keep containers closed when not in use. Avoid formation of mist and aerosols.
Storage: | P403+P233+P405: Store in the original container, locked up, in a well ventilated place, away from incompatible materials, and away from food or drink. See Section 10. Keep from freezing. Keep container tightly closed until ready for use. Do not reuse the container. Average shelf life: 18 months.

Section 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational Exposure Limits:

		Exposure Limits TWA ^A		
Name	CAS No.	ACGIH® TLV®	Federal OSHA PELs	OSHA PELs 1989 ^B
Calcium stearate	1592-23-0	10 mg/m ³	Not Established	Not Established
Glutaraldehyde	111-30-8	Ceiling 0.2 mg/m ³	Not Established	Ceiling 0.8 mg/m ³

All exposure limits listed are 8-hour time weighted average (TWA) — except where noted otherwise.

^A Time Weighted Average (TWA) is an average exposure over the course of an 8-hour work shift.

^B Federal OSHA 1989 PELs were vacated but are in use and enforced by many state OSHA plans.

Engineering measures: General ventilation is acceptable if exposure to materials in this section does not create symptoms listed in Section 2, or exceed exposure limits in this section. If exposure limits are exceeded, provide local exhaust ventilation according to general industrial hygiene practices.

PERSONAL PROTECTIVE EQUIPMENT

Respiratory protection: When engineering controls are not sufficient to reduce exposure to levels below applicable exposure limits, seek professional advice prior to respirator selection and use.

Skin and body protection: Handle with impervious (PVC or rubber) gloves. Choose body protection e.g. impervious apron, sleeves, coveralls, as specified by a PPE assessment and the amount of potential splash created.

Eye protection: Safety eyewear, for example safety glasses with side shields and face a shield, should be used when a PPE assessment indicates this is necessary to avoid exposure to liquid splashes, or mists.

Hygiene measures: Avoid skin exposure. Wash hands before eating, drinking, smoking, or using toilet facilities.

Other precautions: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and at the end of the work period.

Section 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Milky white liquid
Physical state (solid/liquid/gas): Liquid
Substance type (pure/mixture): Mixture
Color: White
Odor: Latex
Molecular weight: Not available

pH:	9.0 to 12.0
Boiling point/range (5-95%):	212°F, 100°C
Melting point/range:	32°F, 0°C
Decomposition temperature:	Not available
Specific gravity:	1.00 to 1.05
Vapor density:	Not applicable
Vapor pressure:	Not applicable
Evaporation rate (Butyl acetate= 1):	Not applicable
Flash point, method used:	Not applicable
Water solubility:	100 %
VOC Content:	0 %
Auto-ignition temperature:	Material is not self-igniting
Flammable limits in air — lower (%):	Not applicable
Flammable limits in air — upper (%):	Not applicable

Section 10. STABILITY AND REACTIVITY

Reactivity:	Under normal conditions of storage and use, hazardous reactions will not occur.
Stability:	The material is stable.
Possibly hazardous reactions:	None known.
Conditions to avoid:	No specific data
Incompatible Materials:	Strong oxidizing agents.
Hazardous decomposition products:	Formed under fire conditions: carbon monoxide, carbon dioxide, calcium oxides.
Polymerization:	Will not occur.

Section 11. TOXICOLOGICAL INFORMATION

Acute toxicity: No toxicity data is available for the product as a mixture. The following component data is provided.

Product information:

Name	CAS No.	Inhalation:	Dermal:	Oral:
Calcium stearate	1592-23-0	Not available	Not available	Acute LD ₅₀ (Rat):>10,000 mg/kg
Glutaraldehyde	111-30-8	Not available	Not available	Not available

Chronic toxicity: Ingredients are not listed by the NTP, OSHA, or EPA as carcinogenic.

Sensitization: Not known to cause sensitization in humans.

Section 12. ECOLOGICAL INFORMATION

Ecotoxicity effects:	No information available
Bioaccumulative Potential:	There is no evidence to indicate bioaccumulation will occur.
Persistence and degradability:	The product is expected to degrade in one month or less.
Mobility in Soil:	No information available

Section 13. DISPOSAL CONSIDERATIONS

Disposal considerations: Generation of waste should be avoided or minimized wherever possible. This material and its container must be disposed of in a safe way. P501: Empty containers or liners may retain some product residues. Dispose in accordance with state/ provincial, and local regulations.

Section 14. TRANSPORT INFORMATION

Please refer to DOT regulation 49 CFR 172.101:

Transport information: Not regulated for transport.
Hazardous Materials Description: (DOT and IATA): None.
UN/identification no.: None.
Proper shipping name: None.
Hazard class: None.
Packing group: None.
DOT reportable quantity (lbs.): None.

Section 15. REGULATORY INFORMATION

U.S. federal regulatory information:

State and community right-to-know regulations:

The following component(s) of this material are identified on the regulatory lists below:

U.S. TSCA Chemical inventory Section 8(b), AICS (Australia), DSL (Canada):

OSHA — This product is determined to be hazardous as defined in the OSHA Hazard Communications Standard.

CERCLA Sections 102a/103 (40 FR 302.4): This product is not classified as hazardous or reportable under this requirement.

Some Components of this product are listed in the following sections of **SARA**:

SARA Title III Section 302 — Not applicable

SARA Title III Section 304 — Not applicable

SARA Title III Section 313 — This product does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels.

SARA Title III Sections 311/312 Hazardous Categories (40 CFR 370.21)

Acute health hazard: Yes
Chronic health hazard: No
Fire hazard: No
Reactive Hazard: No
Pressure Hazard: No

RCRA Regulated Components: None

Marine Pollutant: Not listed

State Regulations: Not applicable

California Proposition 65 Components

This product does not contain chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

INTERNATIONAL REGULATIONS

Identification According to EEC Directives: Not available

WHMIS (Canada)

Hazard Class: D2B

All ingredients are on the Domestic Substance List (DSL) of Environment Canada

***NOTE:** User must consult with applicable state and local agencies for special specifics, determinations or compliance obligations regarding this product.*

Section 16. OTHER INFORMATION

The information and recommendations contained herein are based upon tests, data, and information resources believed to be reliable. However, **Premiere Concrete Admixtures (Premiere)** does not guarantee the accuracy or completeness, nor shall any of this information constitute a warranty, representation, or license of any kind, whether expressed or implied, as to the safety of goods, the merchantability of the goods or the fitness of the goods for a particular purpose. Premiere assumes no responsibility for injuries proximately caused by use of the Materials if reasonable safety procedures are not followed as stipulated in this Safety Data Sheet. Additionally, Premiere assumes no responsibility for injuries proximately caused by abnormal use of the Material even if reasonable safety procedures are followed. The buyer assumes the risk in its use of the Material.
